

JEFFREY R. REVILLA

JUNIOR FULL-STACK WEB DEVELOPER

Sibagat, Philippines | +63 938 156 7273 | jeffreyrevilla128@gmail.com | linkedin.com/in/jeffrey-revilla-9ab321417 | github.com/jeffreyrevilla128-ui

PROFESSIONAL SUMMARY

Full-Stack Web Developer with hands-on experience building user-friendly web applications using React, Vue.js, Node.js, Express.js, Laravel, and PostgreSQL. Skilled in frontend and backend development, technical documentation, and integrating AI-powered features to enhance web application functionality.

EDUCATION

Caraga State University <i>Bachelor of Science in Information Technology</i> 2022 - 2026	Butuan City, Philippines
Father Saturnino Urios Sibagat Inc. <i>Stem Strand (With Honors)</i> 2020 - 2022	Sibagat, Philippines
Father Saturnino Urios Sibagat Inc. <i>K-12 Curriculum (With Honors)</i> 2016 - 2020	Sibagat, Philippines

DEVELOPMENT EXPERIENCE

OPEN-SOURCE INTERNSHIP MANAGEMENT WEB APPLICATION

Full-Stack Web Developer	May 2026 – Present
- Developed and deployed an open-source internship management web application designed to support students across multiple universities, streamlining attendance tracking, daily logs, and activity management. - Integrated speech-to-text functionality for hands-free daily journal entry and voice command navigation, reducing manual input and improving convenience for users. - Developed responsive UI components for attendance monitoring and time tracking using React and Tailwind CSS, improving usability across desktop and mobile interfaces. - Designed REST APIs and relational database structures using Express.js and Supabase to manage authentication, user roles, and data persistence, supporting reliable and secure application workflows.	

INTERNSHIP MANAGEMENT SYSTEM (IMS)	ATI Caraga, Butuan City, Philippines
Co-Developer / Web Development Intern	February 2026 – June 2026

- Co-developed an Internship Management System from the ground up using Vue.js, Laravel, and PostgreSQL, establishing core full-stack workflows and system architecture.
- Developed REST APIs and integrated external map services to support data exchange and location-based internship application features.
- Implemented core database interactions and backend workflows for student applications, document processing, automated eligibility checking, and staff review.

- Delivered end-to-end full-stack features that automated manual administrative tasks, streamlining internship tracking and review processes for ATI staff.

CSU LOST AND FOUND

Caraga State University, Butuan City, Philippines

Lead Full-Stack Web Developer

August 2025 – May 2026

- Led the end-to-end development of a full-stack lost-and-found web application using Vue.js, Tailwind CSS, and Express.js to digitize campus item reporting, matching, and claim management.
- Integrated and adapted Qwen2-VL-2B locally using PyTorch to extract item metadata from uploaded photos and automatically populate report fields.
- Partnered with the Office of Campus Security to translate manual processes into secure digital workflows and document system requirements, workflows, and implementation details.
- Implemented AI-assisted item matching and QR-code verification, achieving an 82% automated match rate during system evaluation.

TECHNICAL SKILLS

Languages: JavaScript, PHP, Python, SQL, HTML, CSS

Frontend: React.js, Vue.js, Tailwind CSS

Backend: Node.js, Express.js, Laravel

Databases: PostgreSQL, Supabase

AI Integration: Qwen2-VL-2B, PyTorch, Vision-Language Model Integration

Authentication & Integration: Google OAuth, REST APIs, Map APIs, Speech-to-Text, QR Code Integration

Tools: Git, GitHub, VS Code, Postman, Docker
